

Participant Number: _____

CJM04 Questionnaire

Before you go, please may you clearly and precisely detail how you completed the last stage of the experiment. Please pay particular attention to any differences (or lack thereof) in your responding in the presence of the letters that cued nice foods and in the presence of the letters that cued devalued foods.

Please note there are no wrong answers here - we are interested in what you actually did, not what you think you should have done!

Did you actively attempt to earn the valued foods?

Did you actively attempt to avoid earning the devalued foods?
